## D9 Neighborhood Report

By Metro District 9 Councilman Andrew Owen

We have had an unusually high number of shooting incidents this summer in Clifton and Metro Council District 9. Council District 9 is located in LMPD's 5th Police Division, which also includes Metro Council District 8 and parts of Metro Council District 4. After a particularly violent week in early August, Councilman Reno-Weber (8th District Council) and I, co-hosted a public event on Sunday, August 6, to discuss the most recent events at Frankfort Avenue and New Main Street and Bardstown Road and Bonnycastle Avenue.

We were joined at the event by Major Jason Grissom – Commander of LMPD's 5th Division, Brad Silveria - Administrator for the Metro Alcohol Beverage Control, Paul Callanan - Director of the Office for Safe and Health Neighborhoods, and Michael Bogan - the Director of the Metro Group Violence Intervention program. This event was announced on a Thursday and by Sunday afternoon about 500 concerned citizens showed up at the meeting.

A couple of important things came out of the meeting:

- 1) We discussed at length the many policies and programs, particularly related to youth engagement, Metro Government was able to fully fund in the recently passed fiscal year 2024 annual Metro Budget. This community investment occurred after a number of years of the underfunding of programs that support after school and summer youth activities and promote youth civic engagement. There was a particularly glaring cut to these programs in FY 2019, when severe Metro Government budget shortfalls were the order of the day. We also discussed how the rising numbers of disengaged youth in Metro Louisville and other cities is directly correlated to the high violent crime numbers we are experiencing now. So, we feel good about our long-term investment in reducing crime through these programs, but it will take some time to bring those youth disengagement numbers back down to healthy levels and see measurable progress.
- 2) In the short term, a couple of things need to happen to address the urgent situation we are facing today. We need to continue to rebuild the number of LMPD officers in the force so we can return to a more proactive community policing strategy that prevents crime rather than being forced to be entirely reactionary; we need to continue to rebuild the faith and trust between the community and LMPD through community engagement strategies and increased transparency; we need to get our officers out of their cars and embrace a policing model that utilizes foot patrols, bikes, ATVs, golf carts, horses, anything that promotes interaction between our officers and the community.
- 3) And finally, ABC announced at the meeting a change to the enforcement policy of the Metro noise ordinance and have committed to dialing back the general intensity at local establishments that serve alcohol, in an attempt to reduce noise, rowdy behavior and potentially crime. This tighter enforcement will occur primarily during late night hours when many people have already gone to bed with the intention of keeping a lid on rowdy behavior. We understand that we have a limited number of tools in our toolbox to reduce the number of guns in our neighborhoods, so hopefully, by literally turning down the volume at these establishments, we will see a reduction in crime and violence.

On a more positive note, in the last couple of weeks we have installed a new EV charging station at the public parking lot at the corner of Frankfort Avenue and Keats. This was a joint project between Evolve KY, a local non-profit that promotes EV vehicle adoption and charging stations, the Sierra Club of Kentucky, and your Metro Council District 9 office. The charging station is free and open to the public on a first come, first serve basis.

## New EV Charging Station Installed at Frankfort and Keats

A new second electric vehicle charging station was installed beginning July 28 in the public parking lot at Frankfort and Keats. This project is made possible due to the partnership with Evolve KY, Sierra Club, and the 9th District Metro Council office and is another significant step towards promoting sustainable transportation and addressing the growing need for accessible charging infrastructure. More and more residents are opting for a greener vehicle option, so providing convenient and efficient public charging solutions is critical to the city's future.

The initial electric vehicle charging station is still located in the Irish Rover parking lot (2319 Frankfort) just on the other side of the fence.

## The 8th anniversary for The Hub Louisville, 2235 Frankfort Ave.

As we approach our 8th anniversary in January, The Hub Louisville would like to extend a warm thank you to the Clifton community for welcoming us into their neighborhood.

The Hub Louisville has worked hard to be part of the Clifton community, and has created and participated in several events that benefit the community. Here are some of our accomplishments in the past 8 years:

- We host a monthly drag brunch benefitting the U of L LGBT Center
- Puppies and Pints patio party that benefit the Arrow Fund and The Animal Care Society
- Money for the Bunny Karoke contest, benefiting the Frankfort Avenue Easter Parade
- A special event that raised thousands of dollars to help the Flood Victims of Eastern KY

Talmage and Eric, owners at The Hub Louisville, spent years sitting on the boards of Clifton Community Council, as well as the Frankfort Avenue Business Association. The Hub Louisville loves the Clifton neighborhood and has enjoyed watching it grow and thrive.

From the beginning, we have worked hard and have done our best to be good neighbors.

- We worked extensively with sound engineers to soundproof our building
- We have also hired off-duty police officers, Golem Security Company, and have our own internal security team each night to ensure the safest possible environment
- We have multiple safety screening procedures in place and every customer that enters the building has to go through
- We have worked closely with LMPD and Louisville ABC to keep everyone safe
- We have signed up to provide full access to our exterior cameras to LMPD
- We have taken measures to ensure that no patrons leave our premises with any trash (even water bottles!)
- We have also participated in neighborhood cleanups to keep our neighborhood looking nice

We look forward to seeing this neighborhood continue to flourish and hope we can keep contributing in making Clifton special.

## Clifton-Crescent Hill Neighborhood Plan

[www.cliftoncrescenthillplan.com](http://www.cliftoncrescenthillplan.com)

The Clifton & Crescent Hill Area Plan was initiated in 2022 by the Clifton Community Council and the Crescent Hill Community Council, with the aid of former Councilmember Bill Hollander (District 9). Over the past year, Louisville Metro worked with local planning firms Taylor Siefker Williams and EHI Consultants to develop a long-range plan for the two neighborhoods that reflects the needs and desires of the community. Information for the plan was gathered through three in-person meetings, two online surveys, and several plan Advisory Group meetings. Some primary topics of concern in the Area Plan were transportation safety, historic preservation, and supporting small businesses. To learn more about the process and review information, visit [www.cliftoncrescenthillplan.com](http://www.cliftoncrescenthillplan.com).

A draft of the full plan document is available for public review, along with an online comment form, at <https://louisvilleky.gov/government/advanced-planning/clifton-crescent-hill-area-plan>. Please review the Clifton & Crescent Hill Area Plan and provide comments by Friday, September 15, 2023.

Volunteers are always needed to help distribute the newsletter, so let us know if you would like to take a route or help on delivery day.
